Selected Travel FAQs
My flight was delayed. What do I need to provide in order to claim additional meals?
Provide actual travel time with justification in the travel expense report. No boarding pass is required.

If my non-conference hotel rate is below FAR, do I need to obtain two quotes for price comparison?
No. Only when it exceeds FAR.

How will I know when a deposit for travel advances or reimbursements has occurred?
If you sign up for ePayment, you will receive email notifications of upcoming deposits. The email will include the travel document number(s) and the amount being deposited.

How should airfare quotations be handled when the trip involves business and personal time?
Transportation should always be by the most economical and direct route. Obtain airline prices for the most direct, economical route. Compare this price to the total transportation price including personal time paid by the traveler. Reimbursement is lesser of the two (actual cost or quoted price for most direct, economical route).
