Accelerating the Fintech Revolution: Blockchain, Cryptocurrency, and Central Bank Digital Currency
by Dr. Jiaying Jiang
Assistant Professor of Law, University of Florida Levin College of Law
Hauser Global Fellow, New York University School of Law

Dr. Jiaying Jiang will talk about FinTech focusing on Central Bank Digital Currencies (CBDC), cryptocurrencies, and blockchain technology in general.

She will discuss the following topics:

- What are the biggest issues created by the use of cryptocurrencies?
- What are the regulatory objectives when it comes to regulating the crypto industry?
- What is the current regulatory landscape of the crypto industry?
- What is the current state of CBDCs?
- What are the legal and policy implications of CBDCs?
